# THE RIGHT FIT FOR EVERY LAB

# Innovations in Laboratory Safety

Workrite FR offers different styles of lab coats to meet various needs. All are flame-resistant (FR), but there are other key differences. Newer styles are made with a lighter-weight fabric, making them more breathable and comfortable. They also have knit cuffs, which were added based on feedback from the University of California. These cuffs keep foreign material out and prevent accidental spills.

The latest innovation is the Workrite FR/CP Lab Coat, which combines the FR properties of DuPont Nomex<sup>®</sup> IIIA with the chemical-splash protection (CP) of Westex ShieldCXP™. The first of its kind, this lab coat simultaneously protects against short-term thermal hazards and inadvertent liquid chemical splashes while also providing superior comfort and flexibility.

Chemicals that ShieldCXP is generally effective against include aqueous chemicals and mixtures, and polar organic solvents. For more information, refer to workritefrcp.com

# Think Thomas for All of Your Safety Needs!

#### PIG® Spill Kit in Bucket

- Polyethylene bucket with easy-open, screw-on lid can be used to ship or temporarily store used absorbents
- PIG BLUE Socks stop spreading spills;
   PIG Mat absorbs quickly
- Prepacked container provides easy access to contents
- Large, color-coded label makes identification fast and accurate
- Tamperproof seals help prevent pilfering of spill response supplies
- UN Rating 1H2/Y30/S for Packing Groups II and III
- Use as refill for wall-mount holder (sold separately)
- Only PIG Spill Kits feature PIG Absorbents proven for rapid response.
- For information on custom spill kits, just call 1-800-HOT-HOGS (468-4647)

Thomas No.	Description	Each	List
1205U97	PIG® Spill Kit in Bucket	1	73.33
1205U98	PIG® Oil-Only Spill Kit in Bucket	1	85.99

#### **Universal Spill Kit**

- Neutralizes acids, bases organics, hydrocarbons, water reactive liquids, poisons, air reactive liquids, oxidizers, reducing agents and a host of other types of chemicals
- · Color-coded and designed to change colors
- · Non-toxic
- Safe to handle
- · Easy-to-store
- · Easy-to-use
- Rust inhibitor prevents degradation of hazmat shipping and storage containers

Ampho-Mag™ is a rapid response powder that safely adsorbs and treats any spill and produces less heat and spattering than any other neutralizer available. A gas neutralizer and adsorbent, it prevents pressure build-up in containers.

### **○** JUSTRITE®

#### Sure-Grip® EX Undercounter Corrosives/Acid Steel Safety Cabinets

- Double-wall construction, dual vents, grounding wire connections, adjustable shelves, leakproof sills, three-point self-latching doors and leveling feet
- Manual-close door(s) opens to a full 180 degrees and self-latches when pushed closed
- Superior puncture & abrasion resistance

Thomas No.	Description	Each	List	Sale
8246B12	Sure-Grip EX Undercounter Corrosives/Acid Steel Safety Cabinet Blue 22 gal 1 shelf 2 manual-close doors	1	1081.39	869.00

#### Sure-Grip® EX Corrosives/Acid Steel Safety Cabinets

Research environments using many different types of chemicals have special storage requirements. Whether using acids, bases or solvents, it is critical that incompatible liquids are segregated to avoid disastrous explosions or fire. The SDS (Safety Data Sheet) should be reviewed to determine chemical characteristics and recommended storage practices.

- Blue steel safety cabinets for corrosives have the same quality safety features as the cabinets for flammables
- Manual-close door(s) opens to a full 180 degrees and self-latches when pushed closed
- Include polyethylene trays attached to galvanized steel shelves and a separate polyethylene liner for the bottom sump resist aggressive chemicals
- Self-close door(s) shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions
- Manual close models meet OSHA and NFPA 30

# Polyethylene Safety Disposal Cans

Eagle Poly Disposal Safety Cans provide an intermediate station for temporary storage of liquid chemical wastes.

- Cans are FM approved and feature a wide 4" spout
- Safety cans have a cap that locks open to 80 degree angle for easy filling
- High density polyethylene (HDPE) construction resists dents and punctures
- Stainless steel fittings and flame arrestor, ideal for aggressive chemicals and corrosives

#### MICR FLEX

#### **XCEED® Powder-Free Nitrile Exam Gloves**

- **Unparalleled Comfort:** In a comprehensive study XCEED® gloves markedly reduced muscle effort
- Improved Strength: Up to 60% stronger than leading nitrile brands and up to 90% stronger than leading latex brands
- **Leading Protection:** Setting the standard with pinhole rates that are nearly 75% below the already stringent level set by the FDA
- Value: Packed 250 gloves per box (230 for X-Large), XCEED® gloves save you money, time and storage space

Traditionally, glove users have had to compromise strength in order to receive a more comfortable lighter weight glove. Less comfortable gloves can increase the muscle effort required to perform repetitive tasks. Prolonged muscle effort over longer periods of time can cause hand fatigue which has been associated with more serious injuries.
