

Thomas Scientific has been providing the scientific community with laboratory supplies, equipment and chemicals for over 120 years. As we continue to expand our portfolio of products and services to meet the needs of our growing customer base, we recognize that not all customers are the same. Customers often have **higher service demands** than traditional or non-traditional suppliers can accommodate. Thomas Scientific is **dedicated** to streamlining workflow processes. We believe that partnering with scientists to better understand their challenges allows us to work collaboratively toward a common solution. More than just a distributor, we are an **active consultant** for highly complex life science workflows.

Thomas Scientific Offers:

- Experienced, Technical Experts
- Innovative Products
- Unparalleled Service
- Consultative Approach to Solutions
- Affordable Pricing

How We Will Help:

- Our team of specialists will schedule an appointment to **review your lab's entire workflow** - from collection to storage
- With our **consultative approach** we will find a **cost-effective solution** using the latest technologies available.
- We have **relationships with the leaders** in clinical diagnostic technologies; technicians, clinicians and the manufacturers that supply their laboratories
- Our specialists will ensure that your team can also benefit from the most **cutting-edge technologies**, **without the worry of supply-chain logistics**

Workflow Value Optimization

2D barcoded tubes and racks • Automation platforms • Automation reservoirs • Automation supplies
