

Imagine a different future for your waste stream.

Choose RightCycle by Kimberly-Clark Professional

Thomas
Scientific

What Is RightCycle by Kimberly-Clark Professional?

The RightCycle Program is a groundbreaking service that enables you to collect previously hard-to-recycle items, such as Kimberly-Clark Professional nitrile gloves, safety eyewear, and single-use apparel items, and have them turned into new consumer goods. Through this program, you can:

-  Reach your organization's sustainability goals
-  Divert waste from the landfill in support of zero waste to landfill initiatives
-  Give your used nitrile gloves, safety eyewear, and single-use apparel items a new life by aiding in the creation of new consumer goods like flower pots, patio furniture, and plastic shelving
-  Reduce your waste disposal costs
-  Protect the planet for future generations

Why Choose The RightCycle Program?

At Kimberly-Clark Professional, our commitment to helping our company and our customers be more sustainable starts with the products we make. That's why we continually work to reduce the environmental impacts of our products at all stages of their life cycle – from raw materials through ultimate disposal of used products.

We aim to reduce dependency on the world's natural resources, leaving more for the future – for our children, for the planet, for our businesses. This is a big responsibility to carry; especially with the multitude of other tasks that require attention in today's business environment. We share in that responsibility, and we want to help you reach your zero waste to landfill goals. That's why we created The RightCycle Program.

Since its inception in 2011,
The RightCycle Program has helped customers divert
over 830 tons of waste from landfills.
Over 550 customers currently participate in the program.
Won't you join us?

Am I Eligible?

The RightCycle Program is open to all companies who use Kimberly-Clark Professional apparel items, eyewear, and/or nitrile gloves in non-hazardous applications. These safety products must not be exposed to hazardous contaminants or require special handling or disposal.

How Does It Work?

Using The RightCycle Program is as easy as 1-2-3!

- 1** Contact your Thomas Scientific representative to learn about how this program can benefit your business.
- 2** Collect used, non-hazardous Kimberly-Clark Professional apparel items, eyewear, and nitrile gloves in receptacles located throughout your facility.
- 3** Consolidate used products on a pallet and ship the full pallets to our Kimberly-Clark recycling centers.

For more information, please visit
www.KCProfessional.com/RightCycle
