# SAFETY DATA SHEET

### 1. Identification

1. Identification			
Product identifier	GRD Pathogen Lysis Buffer		
Other means of identification Product code	G210223		
Recommended use			
Recommended use	Research use only (RUO) for nucleic acid extr Not for use in clinical or in vitro diagnostics.	action process.	
	-		
Manufacturer/Importer/Supplier			
Company name	GRD Diagnostics		
Address	200 Enterprise Drive		
	Pekin, IL 61554 USA		
Website	www.redituslabs.com		
Fax	(469) 498-0223		
Telephone	(866) 736-0002		
Emergency telephone	800-451-8346 (24 hours)		
	Account number: 17687		
2. Hazard(s) identification			
Physical hazards	Not classified.		
Health hazards	Acute toxicity, oral	Category 4	
	Skin corrosion/irritation	Category 1C	
	Serious eye damage/eye irritation	Category 1	
Environmental hazards	Hazardous to the aquatic environment, acute hazard	Category 3	
	Hazardous to the aquatic environment, long-term hazard	Category 3	
OSHA defined hazards	Not classified.		
Label elements			
Signal word	Danger		
Hazard statement	Harmful if swallowed. Causes severe skin burns and eye damage. Harmful to aquatic life with long lasting effects.		

**Precautionary statement** Prevention Do not breathe mist/vapors. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection. If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all Response contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center/doctor. Store locked up. Storage Disposal Dispose of contents/container in accordance with local/regional/national/international regulations. Hazard(s) not otherwise Contact with acids liberates very toxic gas. Corrosive to the respiratory tract. classified (HNOC) Supplemental information None.

### 3. Composition/information on ingredients

#### **Mixtures**

Chemical name	CAS number	%
Guanidinium thiocyanate	593-84-0	47 - 51
EDTA	60-00-4	9 - 11
Triton X-100	9002-93-1	3 - 5
Composition comments	The exact percentage (concentration) of composition has been withheld as a ta	rade secret.
	All concentrations are in percent by weight. Components not listed are either n below reportable limits.	on-hazardous or ar
4. First-aid measures

Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove co present and easy to do. Continue rinsing. Call a physician or poison control ce	
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not ind vomiting occurs, keep head low so that stomach content doesn't get into the lu	
Most important symptoms/effects, acute and delayed	Burning pain and severe corrosive skin damage. Causes serious eye damage. include stinging, tearing, redness, swelling, and blurred vision. Permanent eye blindness could result. Causes respiratory tract burns. Causes digestive tract b	damage including
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Chemical bur immediately. While flushing, remove clothes which do not adhere to affected a ambulance. Continue flushing during transport to hospital. Keep victim warm. H observation. Symptoms may be delayed.	rea. Call an
General information	Ensure that medical personnel are aware of the material(s) involved, and take protect themselves. Show this safety data sheet to the doctor in attendance. W clothing before reuse.	
5. Fire-fighting measures		
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in	a case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move material from fire a without risk. Prevent runoff from fire control or dilution from entering streams, s water supply.	
Specific methods	Use standard firefighting procedures and consider the hazards of other involve	d materials.
General fire hazards	Contains one or more components that will burn if involved in a fire.	
6. Accidental release meas	sures	
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spi appropriate protective equipment and clothing during clean-up. Do not breathe get in eyes, on skin, on clothing. Do not touch damaged containers or spilled n wearing appropriate protective clothing. Ensure adequate ventilation. Local au advised if significant spillages cannot be contained. For personal protection, se SDS.	mist/vapors. Do no naterial unless thorities should be
Methods and materials for	Prevent product from entering drains. Prevent contact with bleach and acids.	
containment and cleaning up	Stop the flow of material, if this is without risk. Absorb in vermiculite, dry sand of into containers. Wipe up with absorbent material (e.g. cloth, fleece). Clean surf remove residual contamination. Following product recovery, flush area with wa dispose of contaminated wash water. Never divert spill to acid-containing severe	face thoroughly to ter. Retain and
	Never return chills to original containers for return. For waste disperal, see so	ation 10 of the CDC

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

**Environmental precautions** 

Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage	
Precautions for safe handling	Do not breathe mist/vapors. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. When using, do not eat, drink or smoke. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment (See Section 8). Wash hands thoroughly after handling. Prevent contact with bleach and acids. Avoid release to the environment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in original tightly closed container. Store in a cool, dry place out of direct sunlight. Store in a well-ventilated place. Do not store in unlabelled containers. Recommended storage temperature: $(59 - 77^{\circ}F) / (15 - 25^{\circ}C)$ . Store away from incompatible materials (see Section 10 of the SDS).
8. Exposure controls/perse	onal protection
Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.
Individual protection measures,	such as personal protective equipment
Eye/face protection	Wear tight fitting goggles and face shield.
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves. Disposable vinyl gloves are recommended. Other suitable gloves can be recommended by the glove supplier.
Skin protection	
Other	Wear lab coat or other protective garments.
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. If respirators are used, a program should be instituted to assure compliance with OSHA 29 CFR 1910.134. Appropriate respirator selection should be made by a qualified professional.
Thermal hazards	No protection is ordinarily required under normal conditions of use.
General hygiene considerations	Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

### 9. Physical and chemical properties

Appearance		
Physical state	Liquid.	
Form	Liquid.	
Color	Not available.	
Odor	Not available.	
Odor threshold	Not available.	
рН	Not available.	
Melting point/freezing point	Not available.	
Initial boiling point and boiling range	Not available.	
Flash point	Not available.	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not applicable.	
Upper/lower flammability or explosive limits		
Flammability limit - lower (%)	Not available.	

Flammability limit - upper	Not available.
(%)	
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient	Not applicable.
(n-octanol/water)	
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
40. Ctability and reactivity	_

### 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Contact with acids or bleach liberates toxic gases.
Conditions to avoid	Protect against direct sunlight. Extreme temperatures. Contact with incompatible materials.
Incompatible materials	Acids. Bleach. Strong oxidizing agents.
Hazardous decomposition products	Thermal decomposition or combustion may liberate toxic and/or corrosive gases or fumes. Carbon oxides. Nitrogen oxides. Sulfur oxides. Hydrogen cyanide.

### 11. Toxicological information

### Information on likely routes of exposure

Inhalation	Causes respiratory tract burns.	
Skin contact	Causes severe skin burns.	
Eye contact	Causes serious eye damage.	
Ingestion	Causes digestive tract burns. Harmful if swallowed.	
Symptoms related to the physical, chemical and toxicological characteristics	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Causes respiratory tract burns. Causes digestive tract burns.	

#### Information on toxicological effects

Acute toxicity	Harmful if swallowed.

Disclaimer

GRD Diagnostics cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product, may be used. It is the user's responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information in the sheet was written based on the best knowledge and experience currently available.

# SAFETY DATA SHEET

### 1. Identification

Product identifier	GRD Pathogen Wash Buffer
Other means of identification	
Product code	G210224
Recommended use	Research use only (RUO) for nucleic acid extraction process.
Recommended restrictions	Not for use in clinical or in vitro diagnostics.
Manufacturer/Importer/Supplier/	Distributor information
Company name	GRD Diagnostics
Address	200 Enterprise Drive
	Pekin, IL 61554
	USA
Website	www.redituslabs.com
Fax	(469) 498-0223
Telephone	(866) 736-0002
Emergency telephone	800-451-8346 (24 hours)
	Account number: 17687

### 2. Hazard(s) identification

Label elements

Physical hazards	Flammable liquids	Category 2
Health hazards	Skin corrosion/irritation	Category 1C
	Serious eye damage/eye irritation	Category 1
OSHA defined hazards	Not classified.	

Signal word	Danger
Hazard statement	Highly flammable liquid and vapor. Causes severe skin burns and eye damage.
Precautionary statement	
Prevention	Keep away from heat/sparks/open flames/hot surfaces No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Do not breathe mist/vapors. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
Response	If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center/doctor. In case of fire: Use water fog, alcohol resistant foam, dry chemical powder, carbon dioxide to extinguish.
Storage	Store in a well-ventilated place. Keep cool. Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	Contact with acids liberates very toxic gas. Corrosive to the respiratory tract.
Supplemental information	None.

	Stop the flow of material, if this is without risk. Use a non sand or earth to soak up the product and place into a con absorbent material. Clean surface thoroughly to remove recovery, flush area with water. Retain and dispose of co to acid-containing sewer.	ntainer for later dis residual contamina	posal. Wipe up with ation. Following product
	Never return spills to original containers for re-use. For w	vaste disposal, see	section 13 of the SDS.

Environmental precautions	Avoid release to the environment. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Do not breathe mist/vapors. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. When using, do not eat, drink or smoke. Avoid prolonged exposure. Wear appropriate personal protective equipment (See Section 8). Wash hands thoroughly after handling. Prevent contact with bleach and acids. Avoid release to the environment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Keep away from heat, sparks and open flame. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in original tightly closed container. Store in a cool, dry place out of direct sunlight. Store in a well-ventilated place. Do not store in unlabelled containers. Recommended storage temperature: $(59 - 77^{\circ}F) / (15 - 25^{\circ}C)$ . Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS).

Other adverse effects	The product contains volatile organic compounds which have a photochemical ozone creation potential. The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.			
13. Disposal consideration	ns			
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Incinerate the			
	material under controlled conditions in an approved incinerator. Do not incinerate sealed containers. If discarded, this product is considered a RCRA ignitable waste, D001. Dispose of contents/container in accordance with local/regional/national/international regulations.			
Local disposal regulations	Dispose in ac	Dispose in accordance with all applicable regulations.		
Hazardous waste code	D001: Waste Flammable material with a flash point <140 F D002: Corrosive waste The waste code should be assigned in discussion between the user, the producer and the waste disposal company.			
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).			
Contaminated packaging		Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or

GRD Diagnostics cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product, may be used. It is the user's responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information in the sheet was written based on the best knowledge and experience currently available.

# SAFETY DATA SHEET

### 1. Identification

Product identifier	GRD Elution Buffer
	GRD Elution Buller
Other means of identification	C240225
Product code	G210225
Recommended use	Research use only (RUO) for nucleic acid extraction process.
Recommended restrictions	Not for use in clinical or in vitro diagnostics.
Manufacturer/Importer/Supplier/	Distributor information
Company name	GRD Diagnostics
Address	200 Enterprise Drive
	Pekin, IL 61554
	USA
Website	www.redituslabs.com
Fax	(469) 498-0223
Telephone	(866) 736-0002
Emergency telephone	800-451-8346 (24 hours)
	Account number: 17687
2. Hazard(s) identification	
Physical hazards	Not classified.
Health hazards	Not classified.
OSHA defined hazards	Not classified.
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard statement	The mixture does not meet the criteria for classification.
Precautionary statement	
Prevention	Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None

Supplemental information None.

### 3. Composition/information on ingredients

#### Mixtures

The manufacturer lists no ingredients as hazardous to health according to OSHA 29 CFR 1910.1200.

4. First-aid measures	
Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary irritation.

Indication of immediate Treat symptomatically. medical attention and special treatment needed **General information** Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. 5. Fire-fighting measures Suitable extinguishing media Use fire-extinguishing media appropriate for surrounding materials. No restrictions known. Unsuitable extinguishing media Specific hazards arising from During fire, gases hazardous to health may be formed. the chemical Special protective equipment Self-contained breathing apparatus and full protective clothing must be worn in case of fire. and precautions for firefighters **Fire fighting** In case of fire and/or explosion do not breathe fumes. Move material from fire area if you can do so equipment/instructions without risk. **Specific methods** Use standard firefighting procedures and consider the hazards of other involved materials. General fire hazards The product is nonflammable and does not support combustion. 6. Accidental release measures Personal precautions, Keep unnecessary personnel away. Ensure adequate ventilation. Wear appropriate protective equipment and clothing during clean-up. For personal protection, see section 8 of the SDS. protective equipment and emergency procedures Methods and materials for Stop the flow of material, if this is without risk. Absorb in vermiculite, dry sand or earth and place containment and cleaning up into containers. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Following product recovery, flush area with water. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. **Environmental precautions** Avoid discharge into drains, water courses or onto the ground. 7. Handling and storage Precautions for safe handling Ensure adequate ventilation. Avoid contact with eyes, skin, and clothing. Wash hands after handling and before eating. Wear appropriate personal protective equipment (See Section 8). Observe good industrial hygiene practices. Store in original tightly closed container. Store in cool, dry, well ventilated area. Do not store in Conditions for safe storage, unlabelled containers. Recommended storage temperature: (59 – 77°F) / (15 – 25°C). Store away including any incompatibilities

### 8. Exposure controls/personal protection

Occupational exposure limits Biological limit values Appropriate engineering controls	No exposure limits noted for ingredient(s). No biological exposure limits noted for the ingredient(s). Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
Individual protection measures, s	such as personal protective equipment
Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin protection Hand protection	Wear appropriate chemical resistant gloves. Disposable vinyl gloves are recommended. Other suitable gloves can be recommended by the glove supplier.
Skin protection	
Other	Wear lab coat or other protective garments.
Respiratory protection	Not normally needed. In case of insufficient ventilation, wear suitable respiratory equipment. If respirators are used, a program should be instituted to assure compliance with OSHA 29 CFR 1910.134. Appropriate respirator selection should be made by a qualified professional.
Thermal hazards	No protection is ordinarily required under normal conditions of use.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

from incompatible materials (see Section 10 of the SDS).

### 9. Physical and chemical properties

9. Physical and chemical [	properties
Appearance	
Physical state	Liquid.
Form	Liquid.
Color	Not available.
Odor	Not available.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Not applicable.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not applicable.
Flammability limit - upper (%)	Not applicable.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not applicable.
Auto-ignition temperature	Not applicable.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
40 Ctability and reactivity	

## 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Extreme temperatures. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

## 11. Toxicological information

Information on likely routes of exposure			
Inhalation	High mist concentrations may cause irritation of respiratory tract.		
Skin contact	Prolonged skin contact may cause temporary irritation.		
Eye contact	Direct contact with eyes may cause temporary irritation.		
Ingestion	May cause discomfort if swallowed.		
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.		

Information on toxicological effe	ects
Acute toxicity	Not expected to be acutely toxic.
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.
Respiratory or skin sensitization	1
Respiratory sensitization	Not a respiratory sensitizer.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	Not classifiable as to carcinogenicity to humans.
IARC Monographs. Overall I	Evaluation of Carcinogenicity
Not listed. NTP Report on Carcinogens	i de la constante de
Not listed. OSHA Specifically Regulate Not listed.	d Substances (29 CFR 1910.1001-1053)
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not an aspiration hazard.
12. Ecological information	
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degradability of this product.
Bioaccumulative potential	No data available on bioaccumulation.
Mobility in soil	No data available for this product.
Other adverse effects	No data available for this product.
13. Disposal consideration	IS
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or

Waste from residues / unused<br/>productsDispose of in accordance with local regulations. Empty containers or liners may retain some<br/>product residues. This material and its container must be disposed of in a safe manner (see:<br/>Disposal instructions).

**Contaminated packaging**
