A Success Story

A Michigan-based cannabis and hemp testing facility was experiencing long lead times on their most important chemicals with their current supplier.

We stepped in to get the chemicals secured on a standing order which streamlined their lead times, leading to more standing orders and greatly improved operational efficiency.

They then joined us at our May 2022 Marketplace event, which exposed them to additional supplies they were unaware that we offered.

Thanks to this great collaboration, Thomas is now assisting the customer with the build out of a new lab, providing all supplies, furniture, and equipment while making Thomas their most trusted partner moving forward.

Thomas Scientific Capabilities

- » 120+ year old company with strong market reputation and competitive pricing
- » 8 nationwide distribution and service centers
- » Ability to serve customers around the world from our Swedesboro, New Jersey headquarters
- » Educated, knowledgeable, and responsive Sales Team
- » Industry-experienced Management Team
- » Extensive product portfolio of over 1 million items including laboratory supplies, equipment, furniture, chemicals, safety, and cleanroom
- » Live contact within 10 seconds with a friendly, experienced customer service representative
- » 98% shipment from stock same day (for orders placed by 2:00pm local)
- » Highest order accuracy in the industry
- » Value added services including TIMS vendor managed inventory, calibration services, equipment financing, and more
