Thomas Scientific's cleanroom product guide features the most utilized cleanroom apparel styles used in a wide variety of controlled environment applications. These exceptionally tailored products are produced in ISO 9001 Certified Manufacturing Facilities, maintaining high-quality workmanship and consistently clean packaging for your most critical environments.

With the introduction of CE-Force™ branded products, Thomas Scientific is committed to the development and expansion of its controlled environment portfolio. New product designs are in development to support technologies for expanding controlled environment industries.

Thomas Scientific Controlled Environment Specialists are poised to provide custom-design apparel solutions for your unique work environment. Contact your Thomas Scientific representative for details.

XtraClean™ Microporous XC6000 Series Frocks, Coveralls & Sleeves

XC microporous fabric is a low linting protective fabric ideal for cleanroom use. It is latex-free and anti-static treated. It has a heavyweight blend of polyethylene and polypropylene that creates a membrane suitable for some hazardous liquids, blood-borne pathogens and where liquid splash is a concern. The polypropylene filtration layer is ideal for an all day cool and protects against light liquid splash.

CE-Force™ Face Masks

CE-Force disposable 3-ply sterile masks are gamma irradiated to Sterility Assurance Level (SAL) of 10⁻⁶ with a pliable nose band. The mask construction has two outer layers of non-woven polypropylene with a high filtration inner layer of melt blown poly-propylene. Manufactured and double bagged in a cleanroom environment. Solvent-free and ultrasonic bonded for a cleaner mask. The masks are sterile packed in individual bags.

High Grip Protection

This series is designed to give maximum anti-skid protection on smooth, wet or powdered surfaces while remaining suitable for controlled environments due to the low linting, multi-layer materials. All have seamless soles, ultrasonic welding and are latex-free. These strong and durable shoe covers are available in two sizes. Universal fits most shoe sizes. X-Large fits big shoes, snow or work boots.

ISO 5 Shoe Covers

These shoe covers are built to conform up to ISO 5 level cleanrooms. The proprietary fabrics offers strength, anti-skid, fluid resistance and durability. Finished with seamless soles and side. Double bag packaged for cleanroom compliance.

Packaging: Universal - 150/Pack; 300/Case,

CE-Force™ CE-Grip Shoe Covers

Provides a foot barrier with excellent waterproofing and anti-skid properties. High level of protection for environments such as pharmaceutical manufacturing, animal labs and industries like rubber, steel or oil. Offers good control on smooth, wet or powdered surfaces and are strong enough to be used on rough floors. Durable and low linting.

Features: Multi-layer, Seamless bottom, Anti-skid grip

Packaging: Universal - 150/Pack; 300/Case, X-Large - 120/Pack; 240/Case

Color: Blue

CE-Force™ Cleanroom Nitrile Gloves

CE-Force nitrile cleanroom gloves are designed for use in Class 10 and higher cleanrooms. Made from virgin nitrile copolymer material, these high quality powder-free gloves are accelerator-free and feature beaded cuffs for secure seal and textured fingers for added grip. In order to control defects and ensure the specified product is consistently manufactured, these gloves are produced at high quality standards, consisting of stringent quality checks as well as laboratory testing at every stage of our production process.

Packaging: 50 pcs x 2 into double cleanroom sealed bag;
10 bags into carton liner; 1000 gloves per master case

Color: White

Floor Mats

CE-Force™ Sticky Floor Mats

CE-Force multi-layered clean-film full adhesive layers form mats that effectively capture dirt and dust from foot-traffic and equipment wheels before they enter the controlled environment. Each of the numbered layers of the mat peels off easily to reveal a new clean surface. Peel-off sheets eliminate the need for messy cleaning and resealable to make it easy to maintain a clean surface. Smooth, effective surface is not damaged by shoes, booties, or cart wheels. Numbered corner tabs for easy tracking of remaining sheets.

Perfect for cleanrooms, laboratories and any other dust/dirt free environment.

Aerospace, Biotechnology, Laser optics, Pharmaceutical

Packaging: 4 x 30 Sheets/Case

XtraClean™ Cleanroom Paper

XtraClean "Class 10" cleanroom paper and stationary meets or exceeds ISO Standards for use in cleanrooms and sterile environments. Latex Free 22# cleanroom paper, 80/g/m weight, 5. mil Caliper 4.8 million Particles /m. Tear strength of 5 kg/ 15 mm machine direction and 2.5 kg cross direction.

Paper comes in White, Blue, Pink, Canary, Green, Grey, Goldenrod, and Ivory.

Sizes: 8½" x 11" and 11" x 17". Other sizes available.

Packaging: 8½" x 11" - 250/Pack, 10 Packs/Case, 2500/Case;
11" x 17" - 250/Pack, 5 Packs/Case, 1250/Case

E.S.S		.018
Ions Sodium Ammonium Potassium (k+)	The determination of ions in paper by capillary ion analysis (CIA) Technique	85 ppm 0.390 uq / cm2 50 ppm 0.24 uq / cm .068 uq / cm2

Note: Data in this table represents typical analysis of these products. These are not specifications. CCR continually refines both its processes and its products. This is the most accurate representation of the typical properties of these products at the time of production.

XtraClean™ Latex Cleanroom Notebooks

Side spiraled cleanroom notebooks are used to make notes and record events of daily operations. Printed with college rule lines or engineering grids on all pages. Spiral notebooks include semi-transparent, high density polyethylene covers. Manufactured to cleanroom standards from 22# latex-impregnated bond and assembled and packaged in an ISO Class 5 cleanroom, these notebooks are designed to keep particle burdens to a minimum.

Includes 100 pages (50 sheets).

Each notebook is individually shrink-wrapped and packaged in a polyethylene bag.

Thomas No.	Description	Case Qty.
Cleanroom Notebooks

XC8511GRID	Latex Notebooks, Grid Paper, Size 8½" x 11"	30

Stationery

XtraClean™ Cleanroom Sticky Notes

Clean Notes “sticky notes” are the answer when all you want to leave behind is a quick message. A special adhesive backing lets Clean Notes easily stick to any surface without leaving particles when the note is removed.

Made from ultra-clean latex-free 28# white bond paper.

Available in 3" x 3" only.

Thomas No.	Description	Case Qty.
Sticky Notes		
XC33PINW-1PK	Sticky Notes, 3" x 3", 100 Sheets/Pad, White, Individually wrapped	24
XC33PINW-24PK	Sticky Notes, 3" x 3", 100 Sheets/Pad, White	24

XtraClean™ Cleanroom Pens & Markers

A low-sodium ink pen designed with a special poly barrel to limit particle generation. The ink cartridge is a two piece container constructed of a metal body with a roller for ink dispense. Pen bodies are manufactured from a molded single piece, extruded high density, white polyethylene.

Thomas No.	Description	Pack Qty.	Case Qty.

XtraClean™ Cleanroom Binders

Constructed of white dissipative .75 gauge, high-density polyethylene.

Transparent poly pockets on front & spine allow identification sheet insertions.

Powder coated metal rings, ESD safe.

Thomas No.	Description	Case Qty.
Cleanroom Binders		
XCBIND-PCM1	Cleanroom Binders, 1"	10
XCBIND-PCM2	Cleanroom Binders, 2"	10
XCBIND-PCM3	Cleanroom Binders, 3"	10

XtraClean™ Cleanroom Sheet Protectors

Cleanroom sheet protectors are designed to protect documents in a non-particulating poly pouch from harsh environments. These static dissipative protectors are three-hole punched for easy insertion into binders.

Thomas No.	Description	Pack Qty.
Cleanroom Sheet Protectors		
XC PROT8511ESD3	Cleanroom Sheet Protectors	100

Thomas Services: Controlled Environments

Welcome to Thomas Scientific's Controlled Environments and Cleanroom Solutions Specialists. A team of controlled environment experts dedicated to providing you with products and service solutions for all your manufacturing requirements for cleanrooms and controlled environments, in markets such as biopharma and advanced technologies.

Experienced, cleanroom and supply chain experts

who drive technical application engagement for products, inventory solutions, and productivity improvements for our customers and supplier partners.

Dedicated Production Customer Service (PCS) Specialist

who ensure quality management of customer specific requirements, order accuracy, on-time delivery, certifications, and provide 360° supply chain communication.

Provide Assurance of Supply

through Thomas's Customer Inventory Reserve Program which delivers business continuity, mitigates the risk of production shutdowns, and improves inventory forecasting, planning collaboration and visibility.

(VMI) Vendor Managed Inventory Service Solutions

delivers enhanced supply chain value by delivering increased productivity and process efficiencies across the customer operations.

Provides Access to the Broadest Supplier Portfolio of Products Supporting Cleanroom and Clean Manufacturing Environments

which provides choice, innovative sourcing options, quality, availability, and environmentally sustainable solutions.

Cleanroom Construction

In collaboration with cleanroom design and construction experts, Angstrom Technology, Thomas Scientific brings an experienced and world-class design-build solution to our customers. Completing a high quality cleanroom build has never been more convenient.

PRODUCTS

- Cleanrooms – Hardwall & Softwall
- Cleanroom Furniture
- Facilities Equipment
- Cleanroom & Gowning Supplies
- Clean Build Construction Protocol Services

Cleanroom Masterclass:

How to Successfully Design & Build Your Cleanroom

Cleanroom design is informed by a variety of different factors ranging from the technical to the practical.

If this is your first cleanroom design or redesign project, knowing where to begin and all the things you need to consider can be a difficult and daunting task.

This is especially true since much on the information available on the subject is highly technical and virtually incomprehensible.

That's why we've created this **FREE LIVE MASTERCLASS** to help you determine the type of cleanroom you need, along with all of the other necessary components, lighting, wall material, equipment, and more.

Visit [ThomasSci.com/cleanroom-construction](https://thomassci.com/cleanroom-construction) to reserve your seat!
