Thermotrack Webserve is a Cloud Platform dedicated to real time monitoring of temperature, humidity and other physical parameters for refrigerators, freezers, incubators, HVAC, laboratories, industry, etc. It works with different sensors and technologies: FoxNet, Sensor Net Connect, Thermo Buttons, Sigfox, GSM.

No hard software to install. Using any internet connected PC, tablet or smartphone, a login and password is enough to set your sensors, thresholds, create multiple users. In case of alarms, alerts are sent by Email, Text messages, Siren. Data is kept for 10 years online.

**MAIN FEATURES**
- Real time monitoring of your critical assets
- Alarms by email, SMS, Pop Up, Siren
- Automatic data archiving

**ADVANTAGES**
- Different types of sensors, 1 single application
- Multi sites and multi users
- Centralization and data sharing on the cloud
- Access from any PC, smartphone, tablet
- 10 years secured backups
DETAILED FUNCTIONS

- Home page with list of sensors or maps
- Temperature graphs with high & low thresholds, zoom with mouse
- List of values with Min, Max, Average and MKT
- Display Data of last 24 hours and records of last 10 years
- Alarms sent by Email, SMS and Pop Up
- Alarm acknowledgement with corrective actions
- Integrated Note Pad for free comments
- Print graphs
- Print list of values
- Print list of alarms
- Export to Excel
- Automated PDF reports sent by email
- Secured access with login and password
- User preferences and rights:
  - Access restrictions by Locations, Zones or Sensors
  - Language (French, English, Spanish, German)
  - Date format
  - Temperature format (°C or F)
- Complies with FDA - CFR21 Part 11

HIGHLIGHTS

ANYWHERE SECURED ACCESS FOR ALL

Access data from any PC, Tablet or smartphone.
No software or App to install using the Cloud.
Give a login and password to all people you want and control who can modify settings

ALERTS SETTINGS

Receive alerts by Email, SMS, alarms on PCs, Siren. Choose single or multiple recipients for each sensor, at the same time or escalating.
