

Think Pink in October

Join us in **THINK PINK** the entire month of **October** and together we can make a difference.

During the month of **October**, simply purchase any products from the laboratory research consumables range, and Cytiva will donate \$1 per pack to the Breast Cancer Research Foundation (BCRF). Pick from trusted brands like **Amersham™**, **Sera-Mag Select™**, **Whatman™** and **MabSelect™**.

Your support in 2019 helped raise \$121,000. This year's goal aims even higher. Together, our **2020 goal** is to raise **\$175,000** for the **BCRF**.

Research is improving care every day and producing better outcomes to transform lives. Cytiva's laboratory and research consumables are used in labs around the world. Help us continue to support the BCRF's mission to fund critical work in areas from cancer research to development of therapeutics.
